العمل المحمي: إدماج وترقية للشخص المعوق في الجزائر

إعداد
As part of the promotion of employment, integration and social and vocational integration of persons with disabilities, work-based care institutions and protected work establishments may be created. These establishments, which supervise people with disabilities of working age, are divided into two categories: Protected work establishments, governed by Executive Decree No. 08-83 of 4 March 2008, are divided into: sheltered workshop and homework distribution centre. The disabled workers concerned are those who are not fit to engage in a regular occupation, but may have an effective working capacity and are entitled to a fixed salary depending on the occupation, their qualification and their actual performance. Persons with disabilities who are not fit to engage in work in an ordinary environment or a sheltered workshop are admitted to work-based care establishments (Executive Decree No. 08-02 of 2 January 2008) divided into: help through pedagogical work. These workers benefit from the provisions on social security, health, hygiene, safety, occupational health and remuneration in return for the work provided...
